

# The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures.

**"Favorite Prescription" is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice.**

Some of the numerous and strongest of professional endorsements of its ingredients will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for cloth-bound copy.

If sick consult the Doctor, free of charge, by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

## SAVING TIME WITH THE WASH

By This Scheme It Really Seems That a Person Can Do Two Things at Once.

To the housewife who must do most of her own work here is a saving of time. Fold evenly and shake well a sheet, which lay smoothly on the ironing board. On this iron your daintily embroidered waists and underwear. After a waist is half ironed, move sheet along and finish waist. A little experience will show you how to run iron on along the hems and edges without extra effort. Turn sheet over, already folded as above, and iron another waist. Lo and behold, you have two articles smoothly ironed. Never sprinkle the sheets. The dampness from the other articles dampens them sufficiently. On pillow cases iron all your handkerchiefs and napkins, collars, etc. You will be surprised at the rapidity with which your basket empties and at the scheming you can do to iron two things at once. Do not iron long on the same sheet or pillow case—you will find it yellowed and worn thin. Only iron till it is nicely smooth. All unstarched articles iron much easier when just taken from the line. Old gingham, such as kitchen aprons and old house dresses, iron smoothly when just dry, and unsprinkled, even though starched. While the woman is finishing the wash you can be hustling the iron over these things.

## FIXING THE TOUGH CHICKEN

One of the Best Ways by Which Venerable Bird May Be Made Tender and Palatable.

When the "chicken" ordered by telephone turns out to be a venerable hen or rooster, do not despair. There are several ways of transforming it into a respectable family piece of resistance. In fact, by the following method such fowls have been made as tender as spring chickens: Let the bird, after drawing, seasoning and stuffing, simmer until over half done. Then place it in the oven with a piece of pork laid over its breast. Pour the liquor over and around the roast in the pan. Finish the cooking in a very hot oven, basting frequently with the drippings. When ready to serve skim off any superfluous fat that may be in the pan before preparing the gravy. The pork prevents the fowl from becoming dry, and if a small onion is also added it will have a more savory flavor. The simmering lessens its toughness. In fact, slow simmering is just the thing for any tough meat, but it should simmer, not boil. Boiling will toughen the tenderest of meat.

## USEFUL LAUNDRY BENCH

The bench should be strongly made and the cross-piece should be about five or six inches wide, upon which the clothes may be laid while being transferred from one tub to another. Provide faucets for the tubs, as it is easier to let the water run off than to break one's back lifting the tubs. The wringer may be placed on the cross-bar.

## Tapioca Prune Dessert.

Put four tablespoonfuls of instantaneous tapioca into a double boiler, and a quarter of a tablespoonful of salt and two cupfuls of milk. Cook for a quarter of an hour. Remove from the fire and add two tablespoonfuls of sugar, one tablespoonful of butter and two well-beaten eggs. Turn into a buttered pudding dish and bake in a moderate oven for 30 minutes. Have ready a cupful of prunes that have been steamed till tender and rubbed through a sieve. Spread this purée over the tapioca. When cold, cover with whipped and sweetened cream. Sprinkle a little pink sugar over the top.

## Cocoa Pudding.

Put a quarter of a pound of stale breadcrumbs into a saucepan with half a pint of milk, stirring while it boils until it becomes a thick paste; add a cupful of sugar, a tablespoonful of butter, a tablespoonful of prepared cocoa and a little vanilla seasoning. Remove the mixture from the fire. Stir in the yolks and whites of two eggs beaten separately. Put into a buttered pudding dish and bake for half an hour.

## Walnut Taffy.

Place over the fire in a kettle three pounds of sugar and one pint of water. When the sugar is dissolved then the sirup comes to a boil add one-half teaspoonful cream tartar and cook to the crack degree. Spread in a buttered pan a pound and a half of shelled nuts, hickory or walnuts. Pour the boiling candy over them and when cool break into pieces.

## Pumice Stone for Pans.

When washing kitchen utensils, such as skillets, frying pans, etc., scour with a flat piece of pumice stone, which can be procured at any drug store for a few cents, and lasts for some time. You will find it a good help in keeping such articles bright and clean.

## Texas Woman Near Death.

Wills Point, Tex.—In a letter from Wills Point, Mrs. Victoria Stallings says: "I was afflicted with womanly troubles, had a dreadful cough, and suffered awful pains. I certainly would have died, if I had not been relieved by taking Cardui. Now I am stronger, and in better health than I ever was in my life. I can't say half enough for this great medicine." Do you need relief? Try Cardui for your womanly troubles. Its long record of successful use is your guarantee. Thousands of ladies have been helped to health and happiness by Cardui. It will surely help you. Try a bottle today.

## THEY KNOW HOW MAN FEELS

Women Who Wear the Tube Skirts Find That They Bag at the Knees.

The pretty widow looked carefully down the front of her gown and gave it a little shake. "In one respect," she said, "these tube skirts have certainly taught us women to sympathize with the men, namely, the danger of having our clothes bag at the knees. We are not in the habit of thinking of it, either, and after wearing a gown a few times we are horrified to find a billowy bulge at the knees, for which there is no remedy. I am trying hard to remember this danger and to acquire the little mechanical pull in sitting down that a man gives his trousers. That will help some if I can attain it. The true hobble skirts that are full over the knees and gathered in around the ankles have the advantage of not becoming knee-sprung, but the tube skirt is just as bad as trousers. I thought tube skirts would be economical, because so little material is required to make one, but if I must have a new one every few days they are really extravagant.

"No, I don't know if tube skirts and baggy knees have anything to do with women's rights. If they have I haven't made the mental connection yet. I'll have to think about it."

## GRAND OPERA CRITICISED.

Herbert Spencer wrote in regard to opera: "I was intolerant of gross breaches of probability. Though able to listen without too obtrusive a sense of incongruity to the melodic renderings of their feelings by hero and heroine, since song is natural to high emotion, yet I could not help making internal protest against the extension of musical utterance to other characters in the drama, who were not similarly moved. That serving men and waiting maids should be made poetical and prompted to speak in recitative, because their masters and mistresses happened to be in love, was too conspicuous an absurdity; and the consciousness of this absurdity went far toward destroying what pleasure I might otherwise have derived from the work."

## FULLER'S EARTH.

Fuller's earth is found in the English Jura in the Belgian chalk formations, in Rosswein and Siebelem in Saxony and along the Oder river in the province of Silesia. Fuller's earth is extensively exported, especially from Florida and other parts of the United States. Its principal uses in Germany are to dissolve fats and oils used in soap and other industries, to scour and cleanse cloth, in the manufacture of colored paper and rugs, in the production of ultramarine and also in the manufacture of an article to clean out spots.

## HIS INNINGS.

On a recent examination paper in civics was this question: "If the president, vice-president, and all the members of the cabinet should die, who would officiate?"

Robert, a boy of twelve, thought for some time, trying in vain to recall who came next in succession. At last a happy inspiration came to him and he answered, "the undertaker." —Housekeeper.
